

Introducing United Screening's Post Hire Driving Records Monitoring Solution

USS MVR Track is a powerful yet simple tool designed to assist businesses in managing their employee drivers more effectively. In a world where 14% of driving records incur derogatory activities each year and where these activities may present your business with the risk of potential litigation, **USS MVR Track** delivers updated information to proactively manage these risks.

USS MVR Track provides ongoing preemptive monitoring of employee driving records limiting future risk exposure, decreasing negligent driver retention, and reducing administrative costs across the board.
